

# Parents and Carers Have Your Say

Listening and learning from parents is an important part of our work in schools. We want to make sure that all parents/carers are satisfied with their child's experiences in school and so we need to know if there are areas where we can do better.

So that we can continue to improve our schools, we want to know what you think of the school that your child attends. Please help us by accessing the on line survey on the Dumfries and Galloway website. The best way to find the survey on the website is on the latest news section or by using the search facility and typing in—Have your say

The survey will be available from  
**19th Feb to 31st March 2018**
